Top Rated Movies

Not sure what to watch this week? Here's our list of our top movies as rated by customers. The actual ratings are by more than 1 million monthly movie watches. The films listed below all received at least 50,000 votes by our customers. So you can trust what you read!

Unthinkable
Our customers say: "This is the sort of film that gets you thinking about your own limits. How far would you have gone in order to save thousands of lives? The story is simple, realistic and very good which makes it really effective. Enjoyable is probably not a good enough word to describe this film, it is surely memorable and dramatic." Worth seeing...

Unstoppable
Our customers say: "This is a simple idea and a really exciting action movie. You get the story of two men, ordinary men, who perform an outstanding act of heroism when faced with serious danger. Because they are so ordinary and realistic, Unstoppable becomes so much more of an interesting movie." Great movie for a Saturday night in!

The Kids Are All Right
Our customers say: "It cost about £4m to make, which is quite cheap, but this is storytelling at its finest. No fancy camera work, no editing; just good old-fashioned acting, with an emotional story to improve the performances. It's clear that this is already one of this year's most fascinating films and I think it will come to be viewed as one of the decades best." Don't miss it!

Text 2

Who really invented the telephone?

Paragraph 1

Elisha Gray was born in the United States in 1835 and he died in 1901. From an early age, Gray was fascinated by electricity and went on to teach electricity and science at Oberlin College in the United States. During his life he developed more than 70 different inventions.

Paragraph 2

Gray had been working on the idea of making a telephone for a long time. However, he did not tell anyone about it because the man who was paying him, Samuel White, asked him not to. So, nobody knew that he was working on his invention.

Paragraph 3

In 1876, Gray made his idea public. He submitted an application to get legal rights and ownership for his new telephone invention. Unfortunately, Scottish born scientist, Alexander Graham Bell put in a very similar application for the same idea on the same morning. There was a huge disagreement about who had submitted the application first. Alexander Graham Bell's lawyer said that he had delivered his application several hours before Elisha Gray's arrived.

Paragraph 4

Many people believe that Elisha Gray was the first to think of the idea of the telephone but Alexander Graham Bell was the one who became recognised as the inventor of the telephone. Not many people even know who Elisha Gray is.

Text 3

I smell gas outside my property and call to report it. What happens next?

Our emergency engineers respond to all reported smells of gas. Depending on the exact type of leak and the circumstances, they will call for a repair team to come and carry out the repair or they may schedule the repair for a future date. The engineers will check the site to find the cause of the gas leak and in most cases will repair it immediately. However, there is a chance they may need to return the following day to finish the work once they have ordered the necessary parts.

Will you need to disconnect my gas supply?

We may need to disconnect your gas supply while we repair the gas main outside your property. Our engineers always try to let you know beforehand if they need to do this. How long your gas supply is disconnected will depend on the problem. We will work to restore your gas supply as quickly as possible.

Your gas supplier keeps a priority service register for elderly and disabled customers. If you are on this list, or if you have children under the age of five, and your gas supply is disconnected, we will provide a portable fan heater and a hotplate for you to use for cooking. Please contact your gas supplier for more information about what to do if you think you are on the priority service register.

Will you reconnect my gas supply?

Once we have finished the repair, we may need to get into your property to turn your gas supply back on. If you are not at home, we will leave a contact card asking you to call us to arrange for another visit.

Text 4

(Paragraph 1)

Do you have the desire to improve the lives of those around you? **Caring to Care** are looking for people to work as live-in carers.

- Are you eager to learn?
- Do you have a caring attitude?
- Are you flexible?

(Paragraph 2)

You don't need any experience; all you need is the right attitude and be legally allowed to work in the UK. We will give you the skills required.

(Paragraph 3)

Working as a live – in carer helps people live independently and to remain in their own homes when they may not be able to look after themselves. We have job opportunities all over the UK. You will be able to learn new skills, earn a good wage and see the country at the same time.

(Paragraph 4)

We give you support in your work. We have a 24/7 emergency contact line to help you make tough decisions. We keep you up-to-date with our website and newsletter. Colleagues in our online forum will give you advice.

(Paragraph 5)

Caring to Care carers also get:

- Free food and accommodation while you are working
- A free 5 day residential training course!
- A carer support team to help you settle in, particularly in the first few weeks

Please email us at: caringtocare@lmail.com or visit our website: caringtocare.co.uk for more information.
